TERMS AND CONDITIONS GOVERNING SALE

The lots listed in this catalog will be offered and sold subject to the following terms and conditions:

1. The highest bidder acknowledged by the auctioneer shall be the buyer. In the event of any dispute between bidders, the auctioneer's determination shall be final.
2. New bidders who have not previously established credit must furnish satisfactory references well in advance of sale date, or send a deposit of 25% of their bids, applicable to purchases. Any portion of such deposit not used will be promptly refunded after sale. We reserve the right to require payment in full before delivery of merchandise.
3. We will execute your bids without charging a commission. These bids will be treated as limits. In general, we will start a lot at a small advance over the next to the highest bid. We can neither correct nor assume responsibility for any errors as to amount or lot numbers in bid sheets, so please recheck yours to make sure you have bid on the exact lots you want. We will not accept bids from minors
4. California residents must pay state sales tax. Postage and insurance will be added to invoices for lots to be mailed to successful bidders. All lots sent registered mail. **Overseas buyers must furnish their own insurance.**
5. **All items in this sale are guaranteed genuine**, and as described in the catalog. Claims to the contrary must be made within three days of receipt by the buyer. Lots may not be returned without our written permission. No lots purchased by floor buyers may be returned. **Title remains with Superior Stamp & Coin Co., until invoices are paid in full.**
6. Auction sales are strictly for cash and lots must be paid for immediately in U.S. funds.
7. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. **IN ANY EVENT, THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER.** We recommend, however, if you want the lot, bid close to or over estimate. For some of the lots, we have indicated the number of known pieces and, in some cases, we have described certain coins as possibly the finest known. These descriptions are only the cataloguer's opinion, after much research.
8. The possibility exists that some lots could be misattributed and should this occur, mail bidders may return lots within three days of receipt. Floor bidders are urged to examine lots prior to bidding, since there are no return privileges for coins purchased on the floor.

NOTICE OF EXHIBITION

Lots will be on exhibition each day, starting May 6, through date of sale, from ten o'clock A.M. until 3:30 P.M., at our store, 517 West 7th Street, Los Angeles, California. We recommend that you call or write for an appointment to view lots. Phone: (213) 627-2621.

All photographs in this catalog are of the actual lots being sold.

You may bid generously with the assurance that you will buy the lots for less, if it is at all possible. Your bids are kept confidential and we will not disclose any mail bids.

If you have any questions about this sale, please write or call us.

EXPLANATION OF VALUES

We estimate the value between \$100.00 and \$150.00 (\$100.00--\$150.00)
This lot should sell in excess of \$125.00 (\$125.00--UP)
We were unable to trace any prior sale for a similar specimen and thus are unable to estimate value ()

FOR NEW MAIL BIDDERS

If you have never before bid by mail, an explanation is needed. Basically, the procedure is quite simple. You will notice on the enclosed Mail Bid Form a place for entering the Lot Number as well as the amount you wish to bid. After carefully reading the description of the Lot in question, simply write down the Lot number and the maximum amount you are willing to pay in the appropriate columns. For example, let's assume you are interested in bidding on Lot No. 145. Determine the maximum price you will pay for this Lot and enter this amount on the Mail Bid Form as follows:

Lot	Bid	Lot	Bid
145	90 00		

You will note we have used the term "maximum amount" above. The bid which you enter is the "maximum amount" or top price you will pay for a lot (unless you have checked one of the increase boxes). However, there is always the chance you may obtain the Lot for less! As indicated in our "Terms of Sale," we act as your agent and execute your bids as if you were there in person at the Sale. We will buy the Lot for you as cheaply as possible over the next highest bid. In other words, if your bid, for example, is \$90.00 on Lot No. 145, and the next highest bid, whether by mail or floor, is only \$70.00, the Lot would be awarded to you at \$75.00, or a nominal 5% to 10% increase over the next highest bid.

Before entering your bids, please read carefully our "TERMS OF SALE." Bidding by mail permits the individual to participate in the auction sale just as though he were able to attend the Sale in person. Many **rarities** are obtained through the medium of auction sales, and it can be a very exciting as well as a rewarding method of obtaining wonderful items for your collection. We look forward to your participation in our Sales.

Thank you,

SPECIAL GROUP OF ROMAN GOLD COINS

Caesarea Gold Hoard

The following group of 18 gold aureii were found together in a shallow sand bank in the sea at Caesarea in Israel. Under a magnifying glass, the surfaces of these coins show the results of centuries under sea water—an excellent pedigree on their provenance.

Caesarea was a flourishing Roman sea port in Judea during the first three centuries. Caesarea is located a few miles south of Haifa and due to erosion from the sea, is now mostly submerged.

END OF SESSION

RICHARD L. BONNER

Although a native North Carolinian, Dick Bonner has been a Californian since 1909. He received his B.S. in Business Administration, went to work for the City of Los Angeles, and subsequently received his M.S. in Public Administration by attending U.S.C. night classes.

Bonner worked for the City of L.A. for 40 years; 10 with the Bureau of Budget and Efficiency and 30 as General Manager of the Department of Animal Regulations, where he gained a national reputation by his knowledge, methods and innovations in the field of animal care and control. Mayor Bowron also utilized his talents and expertise as a budget and fiscal adviser and as his personal liaison with the City Council and Committees on budget and financial matters.

In spite of the fact that Bonner found "Ancient History" a boring and dry subject in high school, it was about this time that the Bonner Collection began with 2 leptons, a tribute penny, soon followed by a Shekel of Tyre. He was intrigued and fascinated by almost anything and everything pertaining to biblical times, places, people, events and things. He became an avid pursuer and purchaser of ancient Jewish coins, along with Roman and Greek, etc. that were bible related or historically significant.

Though impatient and perhaps too enthusiastic in his early buying, "Dick" followed good advice and bought the best of what he could find and afford. As do other collectors, he bought "not so good coins" of those he didn't have, always with the hope of getting better ones to ultimately replace them, which he did in most instances. Again like most, if not all collectors, his regrets arise not with the coins he bought, but with those he didn't.

His retirement from the City afforded him more opportunity to concentrate on the study and acquisition of ancient coins and allowed him to travel in those lands whose early coinage had created and motivated his great interest.

Bonner's quest for the rarely encountered coin and his willingness to pay premium prices has brought together this outstanding collection of ancient coins.

As you study the Bonner collection of ancient coins, give special notice to the many scarce and semi-scarce coins in superb condition.

Judean coins were Richard Bonner's specialty and it is here where his efforts result in one of the finest and most complete collections of its kind. There are several unique and many outstanding rarities in the Judean section. The many shekels, half shekels and tetradrachms offer the collector a unique opportunity to acquire one of these famous coins. The collection contains three different coins of Herod Philip II and three different specimens of Herod Antipas. Mr. Bonner's accumulation of Second Revolt coins is perhaps the highlight of the Judean Collection. It has been years since some of these coins have come to light, and may be many more years until they are seen again.

Bonner has been collecting for almost 50 years, solely for his own personal pleasure and with no thought of ever parting with his coins. He derives great joy from locating and acquiring long-wanted coins and treats them with awe and reverence. It is his sincere hope that the new owners will have these same feelings of pride and pleasure in possessing these tiny and cherished little links with antiquity.

Lots 379 thru 611

The Richard Bonner Collection of
ANCIENT JUDEAN COINS

Ancient Judean Weights

379 JUDEA, circa 1200-900 B.C. Five archaic stone weights used in Judea and Israel from 1200 to 900 B.C. Each weight is spherical in shape with a flat side to prevent rolling. The tops of the weights are inscribed in ancient characters designating the weight. The weights are:

Double Shekel
Shekel
Netzev = $\frac{2}{3}$ Shekel
Bekaa = $\frac{1}{2}$ Shekel
Reva = $\frac{1}{4}$ Shekel

Each of the first four pieces is made from a different type of stone. The Reva appears to be made from the same type of stone as the Shekel. These weights were used to weigh gold bullion or precious jewelry, such as might have been taken out of Egypt in the Exodus. In fact, these weights might well be the most ancient of all Jewish artifacts.

This is the complete set of Jewish precious metal weights (up to the double shekel) and is believed to be the only complete set to exist outside of Israel. PHOTO

(\$1000.00-UP)

380 BEKA, 1200-900 B.C. $\frac{1}{2}$ shekel weight with unusually clear markings. A lovely specimen and very rare. PHOTO

(\$250.00-UP)

We are following the order and classifications as used by A. Reifenberg in ANCIENT JEWISH COINS. Although not 100% correct, it is still the easiest reference to follow. Also given will be Meshorer and BMC reference numbers.

Pomponia Musa Series

THE NINE MUSES

These nine maidens, daughters of Jupiter and Mnemosyne, were the goddesses of song, poetry and the arts and sciences. They were worshiped at Rome in company of Apollo, God of Song. In about 68-66 B.C., the moneyer Q. Pomponius Musa struck a series of denarii to commemorate these namesakes of his. They were all depicted with attributes appropriate to their place in the heavenly choir.

1. Calliope playing a lyre resting on column—The Muse of Epic Poetry.
2. Clio holding scroll and leaning on column—The Muse of History.
3. Erato playing lyre with plectrum—The Muse of erotic poetry.
4. Euterpe holding two flutes—The Muse of lyric poetry.
5. Melpomene holding mask and club—The Muse of Tragedy.
6. Polymnia standing in pensive attitude—Muse of the Sublime Hymn.
7. Terpsichore holding lyre and plectrum—The Muse of choral dance and song.
8. Thalia holding comic mask—The Muse of comedy and idyllic poetry.
9. Urania touching globe with wand—The Muse of Astronomy

We present, herewith, a selection of these coins in an excellent state of perservation. Included is a superb specimen of the coin depicting Erato, the Muse of Erotic Poetry. This coin (Syd. 814) is of excessive rarity and will most likely bring a record price. The coin of Thalia, Muse of Comedy, is also an extreme rarity. This specimen has a small chip out of the flan, not affecting any of the design which is well struck and extra fine. This is an excellent opportunity to acquire a complete set of these very rare coins of the Muses. We believe that this is the most complete offering of the "Muse Series" in modern times.

The vast majority of the group are denarii with a sprinkling of quinarii and antoninianii. Represented in this hoard are coins of Augustus thru Trajan Decius. - 1411 MEXICO-REVOLUTION. Durango-Cuencame. Gold 20 Pesos, 1914. The Six-Star Muera Huerta struck in gold. DUR-6; Garza-12b. This is Utberg's plate coin. Uncirculated. To the best of our knowledge, there are only 2 known specimens—this one and the Bothamley coin which is not for sale. The denomination, 20 Pesos, is shown below the rays and above the date. We hope one day this gold coin will be listed in the Friedberg gold catalog. It is most difficult to estimate a value on such a rarity. However, we would not be surprised if this coin realizes in excess of a five figure price. We also advise interested bidders that the same coin, but struck in silver as a one peso, is in the Mexican series, later in the catalogue. PHOTO (\$5,000.00—\$10,000.00)

END OF SESSION

FEDERICO CLAVERIA

To collectors of Mexican coinage, Federico Claveria needs no introduction. His collection is renowned and has no equal. It includes all periods of Mexico's long numismatic history, from the establishment of the first mint in Mexico City in 1536. He is a self-confessed "fanatic" when it comes to Mexican coins.

Claveria, owner of La Tolteca, which manufactures Mexican food for sale at markets and his store, has lived in Santa Barbara since 1946, shortly after his discharge from the U.S. Marines, where he had served as a combat photographer. He and his wife Bertha (who is co-operator of La Tolteca), are parents of two sons, Carlos 28 and Fred Jr. 21.

Born in Mexico City, of Spanish-Basque parents, he grew up in Texas. He has been collecting coins almost all his life...stemming from an adolescent day when he found an 1875 German silver 5 pfennig.

Among the many prizes in his collection are a 60 peso set of gold, silver and copper coins minted in Oaxaca, an extremely rare eight real piece of Louis I, dated 1725, the early quarter real and the two maravedies of Carolus and Johanna, circa 1542, a six-star Muera Huerta, dated 1914, a two-peso Surina, also of 1914, a Parral peso de Bolita of 1913, and the eight real Royalist pieces from Oaxaca, dated 1812.

In vigorous bidding at a recent auction, he established the then record, since broken, for a Mexican coin when he purchased an eight real coin

minted in 1811 at Real de Catorce, once a rich mining town, located in the center of the Mexican state of San Luis Potosi. The silver coin, one of a very few known, was added to what is already known as one of the best Mexican coin collections in the world.

Claveria belongs to many coin-oriented organizations in Spain, Mexico and the United States, including the Azteca Numismatic Society, based in Los Angeles, and is a frequent writer and lecturer on all facets of coinage of our neighbors to the south. In 1963, he was presented the silver medal of Sociedad Numismatica de Mexico, a seldom bestowed award. The silver medal literary award for the best article in the four 1967 issues of CALCOIN NEWS went to Federico Claveria for "The Peso".

Claveria is still collecting eight reales of Mexico and with the exception of a few pieces, we are now privileged to have been selected to auction the balance of his collection. There are many great rarities, which are being offered in the following pages, which include all metals such as gold, silver, and copper coins. We suggest that you carefully study the following lots, as many of the coins are being offered at public auction for the first time.

We, at Superior, have had a tremendous experience in knowing and dealing with Federico Claveria throughout the years. Not only is he a gentleman and a man of his word, but, he is a warm and friendly person.

It is indeed a rare experience to have a client such as Federico, both to sell to, and buy from; and we are privileged and honored to call him "AMIGO".

THE FEDERICO CLAVERIA COLLECTION OF MEXICAN COINS

MEXICO-SPANISH PERIOD

(Carolus and Johanna, 1519-1556. Coins were struck at Mexico City mint using the names Carolus and Johanna from 1535 to 1572.)

Early Series, 1536-1542

2108 **MEXICO.** Carolus & Johanna, 1536-1572. 3 Reales, N.D. Assayer R. Early series, struck before the end of 1537. This specimen is a late striking with most of the Gothic letters replaced by Roman letters. It should be placed between N-5c and N-5d. The denomination is still given with three dots but the E's and the M at the end of the reverse legend are the same as N-5d. Extremely rare type and missing in most Mexican collections. Fine. PHOTO (\$3000.00-\$4000.00)

2109 — Carolus & Johanna, 1536-1572. 4 Reales, N.D., Assayer R. Early series (1536-1542). Crowned Arms. Rev: 4—R between crowned pillars; PLVS in label overlapping the pillars. N-6a. A fully round coin. Extra Fine. PHOTO (\$1000.00-\$1500.00)

Late Series, 1542-1572

2110 — Carolus & Johanna, 1536-1572. Copper 2 Maravedies, N.D. Crowned castle divides the denomination given by two Ms. Rev: Crowned pillar; below, oMo mint-mark. This is the Busser specimen pictured in Nesmith, Pl. XII-2a. It was the only specimen of this type known to Nesmith. Two small flan cracks. One of the great rarities in the Claveria collection. Very Good/Fine. PHOTO (\$1500.00-\$2500.00)

2111 — Carolus & Johanna, 1536-1572. Copper 4 Maravedies, N.D., late series. Crowned K between castle and lion. Rev: Crowned I between castle and lion. N-10. Fully round and well struck. Very Fine to Extra Fine. PHOTO (\$125.00-\$175.00)

2112 — Carolus & Johanna, 1536-1572. 4 Maravedies, N.D. Crowned K; Rev: Crowned I. Nesmith-10. Fine. PHOTO (\$50.00-\$85.00)

- 2113 — Carolus and Johanna, 1536-1572. Silver Quarter Real, N.D. Assayer G. CHAROLVS ET IOHANA Crowned K. Rev: HISPANIARVM IN 8⁺ Crowned I divides M—G
This is the Shuhart specimen listed in his catalogue of Oct. 25, 1968. He describes the coin as UNIQUE and shows a letter from Robert I. Nesmith authenticating it. Although Mr. Nesmith places this coin in the early series as No. 7, p. 75 we feel that it is, indeed, a late series coin and should precede No. 47. Our reasons for placing the coin in the late series are:

1. The style of the piece is definitely that of the coins of the late series.
2. Carolus' name is spelled CHAROLVS, whereas the early series almost invariably is spelled with a K. cf. Nesmith p. 95.
3. The trefoil at the end of the reverse legend was probably used in 1545, according to Nesmith who places the M—G coinage of the late series in 1542-1545. cf. p. 97.

A copy of Mr. Nesmith's authenticating letter will accompany this coin.

No other quarter real of the late series is known, whereas three quarter reals of the early series are known. Very Fine. PHOTO

Louis I, Jan. 10, 1724—Aug. 31, 1724

Louis I was the first son of Philip V and Maria Louisa of Savoy. He was born on the 25th of August, 1707. Philip V abdicated on Jan. 10, 1724 in favor of his 16 year-old son, who only lived for seven months as King. The very few coins struck for Louis I were always treasured by all Spanish-speaking people; and for this reason most of the surviving pieces have been holed for wearing on a chain. The coins of the Mexico mint are only known in denominations of 8 Escudos (Unique), 8 Reales, 4 Reales, and Half-Real. We present, here, a complete set of the silver coins of the Mexico mint in perfectly round specimens.

- 2154 8 Reales, 1725- $\overset{\circ}{M}$ -D. The name: LVDOVICVS I is punched in the die over the name PHILIPPVS V. Probably all of the dies for Louis I 4 and 8 Reales are thus converted from Philip V dies. This is the second variety as listed by Dasi with only one rosette at each side of the Roman Numeral I. This coin is a beautiful, perfectly round specimen which has never been holed. References:

Ex Virgil Brand Collection; sold Nov. 1964 for \$3,000.00.

This great rarity, the keystone of Mexican numismatics, is probably the only specimen of this coin without a hole in private hands. The only other specimen we could trace is in the Madrid mint Museum and is probably the coin pictured in Dasi. In view of these facts, we would not be surprised if this beautiful coin sets a new record high for a Mexican coin. The previous high was \$15,000.00 paid by a prominent Texas collector for the Provisional de Valladolid 8 Reales, 1813 with 3 counterstamps sold in our Pradeau Part III sale of Nov. 1971. There has been a great interest, of late, in important rarities in all fields of collecting. A 1794 U.S. Dollar sold recently for \$110,000.00 and a Ming porcelain vase brought One Million Dollars. Paintings have been sold for well over a million and each new offering brings forth new record prices. This coin, whatever record price it brings, is not only a collector's dream piece, but also a tremendous investment for the future. Perhaps, someday, this numismatic rarity will take its place alongside the Ming vase or the Picasso painting. Extra Fine. PHOTO

MAUNDY MONEY

In ancient times the ceremony of Maundy Thursday consisted in foot-washing only. The monarch washed the feet of as many poor men as he was years old. Although this form of ceremony persisted until modern times in some eastern countries it was abandoned in England in 1754 in favor of the distribution of so-called Maundy pennies. Each year on Maundy Thursday (the Thursday before Easter), the British monarch distributes to the selected poor people a number of Maundy Pennies equal to the monarch's age. The following Maundy sets are complete from 1838 to 1963. It is indeed a rare opportunity to find such a large selection of different Maundy sets by date in one sale. We suggest your careful consideration to the following lots.
